

Appendix table 7-55.

Belief in psychic powers or extrasensory perception, by selected characteristics: 2001
(Percentages)

Characteristic	2001
All adults (number = 1,574)	
Strongly agree	7
Agree.....	53
Do not know	4
Disagree	29
Strongly disagree	7
Male (number =751)	
Strongly agree.....	7
Agree.....	47
Do not know	4
Disagree	34
Strongly disagree	7
Female (number = 823)	
Strongly agree.....	7
Agree.....	58
Do not know	4
Disagree	25
Strongly disagree	6
Less than high school graduate (number = 116)	
Strongly agree.....	4
Agree.....	42
Do not know	4
Disagree	41
Strongly disagree	9
High school graduate (number = 834)	
Strongly agree.....	8
Agree.....	57
Do not know	3
Disagree	26
Strongly disagree	8
Baccalaureate and higher (number = 614)	
Strongly agree.....	8
Agree.....	52
Do not know	5
Disagree	29
Strongly disagree	5
Attentive public to science and technology^a (number = 195)	
Strongly agree.....	10
Agree.....	49
Do not know	4
Disagree	29
Strongly disagree	8

^aTo be classified as attentive to a given policy area, an individual must indicate that he or she is "very interested" in that issue, is "very well informed" about it, and a regular reader of a daily newspaper or relevant national magazine. Individuals who report that they are "very interested" in an issue area but do not think that they are "very well informed" about it are classified as the "interested public." All other individuals are classified as members of the "residual public" for that issue. The attentive public for science and technology combines the attentive public for new scientific discoveries and the attentive public for new inventions and technologies. Any individual who is not attentive to either of those issues but who is a member of the interested public for at least one of those issues is classified as a member of the interested public for science and technology. All other individuals are classified as members of the residual public for science and technology.

NOTES: A few respondents did not provide information about their highest level of education. Percentages may not add to 100 because of rounding. Responses are to the following statement: Some people possess psychic powers or ESP. Do you strongly agree, agree, disagree, or strongly disagree?
